

As an Indiana resident who values my privacy, I am completely opposed to the the federal "established business relationship" exemption to be allowed in Indiana. I purposely registered with my state and NOT with the federal list to keep these types of calls from disturbing my home. If I want something from a business, even my bank, I'LL CALL THEM! Please deny this petition by the Consumer Bankers Association and let us decide who can call us.  
Thank You,  
ELaine Bielefeld
